

Prefix Puzzles

Teacher Directions:

This center reviews the prefixes un, re, and dis. Students read the words on the puzzle pieces and put them together with a prefix that will make a new word. A worksheet is also included so students may write the words once they are sorted. Students may check their work. There is also a writing worksheet so students may write 2 sentences for each of the prefixes. They may choose the words to use.

All you need do is print the pages on white index paper, laminate and cut out the pieces. Centers may be stored in file folders, manila envelopes or Zip lock baggies. I have included a page of blank umbrellas for your own words
