

# The Four Seasons - Printables

How long is your nose? Use a ruler to measure length!

Why are you measuring length? Measure and break both!

Use rulers to measure the squares below on the dotted line, leaving 1 square extra. This will be your nose. Then use your measuring line to your friend's body to measure the following problems.

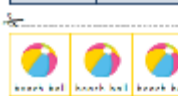

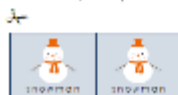

(Each summer square is the line capital 'L'. Each beach ball square is the line capital 'L'.)

How long is your pinkie finger? \_\_\_\_\_ snowman  
 beach ball

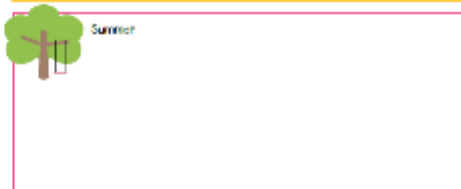

How long is a crayon? \_\_\_\_\_ snowman  
 beach ball

How long is a large paper clip? \_\_\_\_\_ snowman  
 beach ball

How long is your pencil?

Draw the pictures on the bottom of the page. Then, draw lines through the Fall and the Summer!

Which Season?

Draw what you see around the world in the correct season and add the things that animals eat in the same of each season on the line.

winter

fall

summer

spring

winter fall

1. In the \_\_\_\_\_

I spend a lot of time \_\_\_\_\_

2. I love to put on my hat \_\_\_\_\_

the snow during \_\_\_\_\_

3. Each \_\_\_\_\_, I help my dad rake \_\_\_\_\_

leaves in our yard. Then we take turns jumping in the pile!

3. During \_\_\_\_\_, we \_\_\_\_\_

look forward to watching baby birds hatch in the nest outside our window.

Draw during the 4 seasons of the year. Draw you draw in each season below.
