

Rainy Day

Read.

Drip, Drop!

What is the name for water falling from the sky?
That's right—it is rain! Rain falls from clouds.
Clouds are formed by water that we cannot see in
the air. The water in the air is called water vapor.
There are lots of drops of water in the clouds.
When the drops get heavy, they fall to the earth.
Then it rains.

Complete each sentence.

1. What is the name for water falling from the sky? _____
2. Where does rain fall from? _____
3. What is water vapor? _____

4. When do raindrops fall to the earth?

5. Have you ever seen water falling from the sky?

6. What do you like to do when it rains? _____

Bonus Box: When the air is cold, raindrops may freeze. On the back of this paper, draw and label a picture to show frozen raindrops.
