Fraction Worksheets – Part of a group

Writing fractions as a part of group of objects – Practice using fraction worksheets

A group of objects is given for all **fraction worksheets**. Kids need to follow the directions to write a fraction for the part of group having different characteristics. First problem is solved for explanations:

1)	*Fraction of circles to total shapes* $\dfrac{Number\ of\ circles}{Total\ number\ of\ shapes} = \dfrac{1}{4}$
2)	
3)	
4)	
5)
