

If I were stranded on a desert island, ...

Imagine that you are a sailor. One day, there was a big storm and it finished with a shipwreck. You managed to swim during 1 hour before you could finally arrive to a beach. It seems to be a desert island. You are alone. Your objective is to survive as long as you can. For that reason, you have to choose 5 items from this list and explain what would you use them for.

For example: If I had my ship, I would repair it and go home.
