Write the numbers 0–9 in the empty circles to correctly complete the equations.

↙Color the circles in the number line after it is used. Each number is used only once ↘

Name:

0 1 2 3 4 5 6 7 8 9

$$\bigcirc - 1 = 7 \qquad 5 - \bigcirc = 5$$

$$3 + \bigcirc = 5 \qquad 5 - \bigcirc = 0 \qquad \bigcirc - 6 = 0 \qquad 5 - \bigcirc = 1$$

$$5 - \bigcirc = 2 \qquad \bigcirc + 1 = 10 \qquad 4 + \bigcirc = 5 \qquad \bigcirc - 1 = 6$$
