

Jane Goodall

Fact File

Date of birth: 3rd April 1934
 Place of birth: London
 Mother: Margaret Joseph
 Father: Mortimer Morris-Goodall

Jane Goodall knows a lot about chimpanzees. She has lived with them for 55 years and has found out lots of new things about them. Jane has learnt how they behave and act in the wild.

Jane loves other animals, too. As well as chimpanzees, Jane spends a lot of her time helping other animals and wildlife. In 2002, she was given an award for her efforts in helping animals around the world.

Early Years

When she was young, Jane's father gave her a stuffed chimpanzee instead of a teddy bear. Its name was Jubilee and Jane says this is what first made

Chimp Talk

Chimpanzees 'speak' to each other through sounds, touch, making different faces and the way they move.

her want to work with animals. Even though she is much older now, Jane still

love Jubilee!
