

How to Draw a Pumpkin

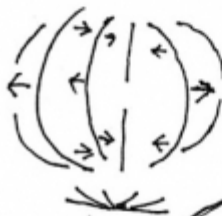

Start with one or two circles, but don't make them perfect- make them flat on the bottom. If you draw two put one in front of the other. the stem is rough, draw it with short choppy marks.

Place the stem a little lower than the top

Shadows make it look Round

Highlights make it look interesting.

The creases are like a bow.

Put the stem a little Lower than the top.

The stem looks like it has toes.
