

Make a Moving Skeleton

Amazing Fact

One-quarter of your bones are in your feet!

Challenge

Have a go at making this moving skeleton. Remember to cut very carefully around the shape.

- You could also try to find out:
- how many bones you have altogether;
 - how the number of bones changes as you get older;
 - which human bone is most often broken.

Glue the circles of the limbs on top of each other and use split pins to secure the their bendability.
