itsy bitsy fun

A detailed diagram of cloud types. The diagram is divided into horizontal layers. Labels include: Cirrostratus (top left), Cirrus (top middle), Cirrocumulus (top right), Altostratus (middle right), Nimbostratus (bottom left), Cumulus (bottom middle), Stratocumulus (bottom right), and Stratus (bottom right). A 'HIGH' label is on the left side, and a 'Cumulonimbus' label is on the right side. Rain is shown falling from the bottom two cloud types.
