**Commutative property**

- 1 Write the corresponding multiplication according to the image and prove the commutative property.

- 2 Complete and prove the commutative property.

$$5 \times 7 = 7 \times \square$$

$$\square = \square$$

$$\square \times 8 = 9 \times \square$$

$$\square = \square$$

$$6 \times \square = 10 \times \square$$

$$\square = \square$$

$$4 \times \square = \square \times 4$$

$$28 = \square$$

- 3 Write **yes** in the square if the comparison is correct, and draw an **X** if it is incorrect. Observe that the commutative property applies.
