

Fractions Of A Set: Spring Things

Let's practice writing fractions!

Please look at the example then complete the rest of the worksheet.

Example:

Here is a set of 3 Easter eggs.

How many Easter eggs are yellow?

1 out of a total of 3 eggs are yellow. We can write this as a fraction: $\frac{1}{3}$

How many Easter eggs are white? $\frac{2}{3}$

Here is a set of 7 jelly beans.

How many jelly beans are blue? $\frac{4}{7}$

How many are white? $\frac{3}{7}$

How many bunnies are there in all? $\frac{4}{1}$ bunnies

How many are white? $\frac{3}{4}$

How many are purple? $\frac{1}{4}$

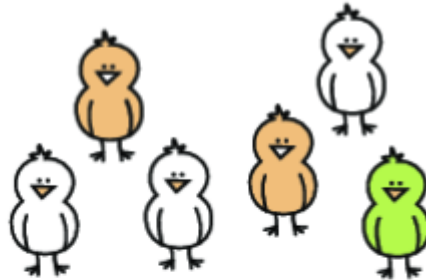

How many chicks are there in all? $\frac{6}{1}$ chicks

How many are white? $\frac{3}{6}$

How many are green? $\frac{1}{6}$

How many are orange? $\frac{2}{6}$

How many tulips are there in all? $\frac{10}{1}$ tulips

How many are pink? $\frac{6}{10}$

How many are yellow? $\frac{4}{10}$

How many do not have leaves? $\frac{3}{10}$

How many have leaves? $\frac{7}{10}$
